

## ❑ SPECIFICATION:

VQSX series Gravity De-stoner is mainly used to separate the heavy impurities such as stone, mud and so on from wheat, white rice and paddy. It has features as no spreading power and dust, fine firmness and durability, easy classifying & maintenance, its tight structure, stable function, easy operating. Etc.

## ❑ CHARACTERISTICS:

High stone-removing efficiency; with shutter sieve, it is more suitable for some grain processing plants where there are more stones content in raw grain. The inclination of shutter sieve varies from 10o to 14o depending on the different feed stock to attain the best processing effect. With external fan, fully sealed machine, and no dust outside machine, thereby gaining the end of environmental protection. Adopt reciprocating mechanism with rubber bearing, less vibrating, low noise.

## ❑ TECHNICAL DATA:

Model	VQSX100	VQSX125	VQSX168
Capacity (Ton/ Hr.)	6.5 – 7.5	8 - 10	10 - 14
Power	1 HP	3 HP	5 HP
Weight	380	480	600

## SUCTION TYPE ESTONER
