

## ❑ SPECIFICATION:

VIJIMECH Vibro finishing Dryers are designed for stain free drying and polishing of components, immediately after vibratory / centrifugal finishing.

Heated Corncob is used as the drying media. The rubbing action of the mass eliminates the residuals of the evaporated water deposited on the surface of the parts. The equipment is offered in, both, batch and continuous operations.

## ❑ FEATURES:

- All heavy-duty welded construction
- Less floor space required than competitive models.
- We can offer our cob dryers to work "in line" with your existing finishing machine.

## ❑ TECHNICAL DATA:

Model	VFD 50	VFD 100	VFD 200
Capacity (Liter)	50	100	200
Power	1 HP	2 HP	3 HP
